## What Is Claimed Is:

∙5

10

15

- 1. A mutein of human basic fibroblast growth factor, or a biologically active peptide thereof, comprising the substitution of a neutral and/or hydrophobic amino acid for one or more of the following:
  - (a) Glutamate 89; or
  - (b) Aspartate 101; or
  - (c) Leucine 137.
- 2. The mutein of claim 1 which comprises the substitution of a hydrophobic amino acid for Glu 89.
- 3. The mutein of claim 1 which comprises the substitution of a hydrophobic amino acid for Asp <sup>101</sup>.
  - 4. The mutein of claim 1 which comprises the substitution of a hydrophobic amino acid for Leu <sup>137</sup>.
  - 5. The mutein of claim 1 which comprises the substitution of a neutral amino acid for Glu 89.
  - 6. The mutein of claim 1 which comprises the substitution of a neutral amino acid for Asp 101.
  - 7. The mutein of claim 1 which comprises the substitution of a neutral amino acid for Leu 137.
  - 8. The mutein of claim 1 wherein a neutral amino acid is defined as alanine and a hydrophobic amino acid is defined as tyrosine.
    - 9. The mutein of claim 1 which is human basic fibroblast growth factor [Ala 89].

- 10. The mutein of claim 1 which is human basic fibroblast growth factor [Ala 101].
- 11. The mutein of claim 1 which is human basic fibroblast growth factor [Ala 137].
- 12. The mutein of claim 1 which is human basic fibroblast growth factor [Ala<sup>89, 101</sup>].

- 13. The mutein of claim 1 which is human basic fibroblast growth factor [Ala 89, 137].
- 14. The mutein of claim 1 which is human basic fibroblast growth factor [Ala 101, 137].
  - 15. The mutein of claim 1 which is human basic fibroblast growth factor [Ala 89, 101, 137].
  - 16. The mutein of claim 1 which is human basic fibroblast growth factor [Tyr 89].
- 17. The mutein of claim 1 which is human basic fibroblast growth factor [Tyr 101].
  - 18. The mutein of claim 1 which is human basic fibroblast growth factor [Tyr <sup>137</sup>].
- 19. The mutein of claim 1 which is human basic fibroblast growth 20 factor [Tyr 89, 101].

- 20. The mutein of claim 1 which is human basic fibroblast growth factor [Tyr <sup>89, 137</sup>].
- 21. The mutein of claim 1 which is human basic fibroblast growth factor [Tyr 101, 137].
- 5 22. The mutein of claim 1 which is human basic fibroblast growth factor [Tyr 89, 101, 137].
  - 23. A polynucleotide encoding the mutein of claim 1.
  - 24. The polynucleotide of claim 23 which is DNA.
  - 25. The polynucleotide of claim 23 which is genomic DNA.
  - 26. The polynucleotide of claim 23 which is a cDNA.
  - 27. The polynucleotide of claim 23 which is RNA.
  - 28. A vector containing the DNA of claim 25.

- 29. A vector containing the DNA of claim 26.
- 30. A vector containing the RNA of claim 27.
- 31. A host cell comprising the vector of claim 28.
- 32. A host cell comprising the vector of claim 29.
- 33. A host cell comprising the vector of claim 30.
- 34. A process for producing a polypeptide comprising expressing from the host cell of claim 32 the polypeptide encoded by said DNA.

	35.	A proc	ess for producing a polypeptide comprising expressing from
	the host cell of claim 33 the polypeptide encoded by said DNA.		
	36.	A pro	cess for producing the vector of claim 28 which comprises:
		(a)	inserting the polynucleotide of claim 25 into the vector; and
5		(b)	selecting and propagating said vector in a host cell.
	37.	A pro	cess for producing the vector of claim 29 which comprises:
	37.	(a)	inserting the polynucleotide of claim 26 into the vector; and
		(b)	selecting and propagating said vector in a host cell.
	38.	Δ ητο	ocess for producing the vector of claim 30 which comprises:
10	36.	(a)	creating a recombinant RNA molecule containing the RNA
10	sequence of claim 27; and		
	sequence or	(b)	selecting and propagating said vector in a host cell.
		(0)	and broken a
	39.	A m	ethod of stimulating cell division which comprises:
		(a)	contacting cells with an effective amount of the mutein of
15 11	claim 1 in vitro; or		
		(b)	contacting cells with an effective amount of the mutein of
	claim 1 in vivo.		
	40.	A pl	harmacologic composition useful for stimulating cell division
	comprising the following:		
20		(a)	An effective amount of the human basic fibroblast growth
	factor mutein of claim 1; and		
		(b)	An acceptable pharmaceutical carrier.
	41.	A r	nethod of healing a wound comprising contacting said wound
			amount of the mutein of claim 1.

- 42. A method of treating ischemia comprising contacting cells with an effective amount of the mutein of claim 1.
- 43. A method of treating peripheral vascular disease comprising contacting cells with an effective amount of the mutein of claim 1.
- 44. A method of treating a neural injury comprising contacting cells with an effective amount of the mutein of claim 1.

- 45. A method of treating a gastric ulcer comprising contacting cells with an effective amount of the mutein of claim 1.
- 46. A method of treating a duodenal ulcer comprising contacting cells with an effective amount of the mutein of claim 1.
- 47. A method of treating heart disease comprising contacting cells with an effective amount of the mutein of claim 1.
